AROMATHERAPY ASSOCIATES

Artisans in the field of Aromatherapy; our founders' vision has remained unchanged for a generation. A simple pursuit - sharing the true power of essential oils and the incredible effects they have at a therapeutic level.

Our core range of mind altering essences has become a phenomenon in the beauty world, much applauded and we are recognised as leaders in our field. Combining expertly blended essential oils with our unique active botanical's has led to remarkable innovations in skincare. The result; beautiful, glowing, healthy skin free from harsh chemicals and unnecessary synthetics.

The Body

Essential oils are made of very small molecules, which means they can easily bring their unique healing properties to every cell of the body. They are traditionally used to help ease muscular aches and pains, improve circulation and ease sinus congestion. They also have a positive effect on the skin, penetrating into the deeper layers to encourage the process of cellular renewal, enhance blood circulation and help problems such as acne, eczema and ageing skin.

The Mind

Linked to the areas of the brain governing instinct, memory and emotion, our sense of smell is the most primitive of our senses. Through the pathways between smell and the deep centres of the brain, essential oils can have a dynamic effect on our emotional state. They can help transform our moods and move us from one state of mind to another.
