CLINICAL SKIN RESURFACING

RESURFACE & HEAL

THE SECRET TO CELEBRITY SKIN IS HERE. THE ANSWER?
COMBINING MICRODERMABRASION AND PHOTOTHERAPY
FOR RED-CARPET WORTHY SKIN EVERY SINGLE DAY.

From a buff, polish and glow providing an instant rejuvenated glowing skin texture to a more in-depth treatment for lines, wrinkles, acne scarring, stretch marks and pigmentation problems.

Microdermabrasion is widely known as one of the most successful resurfacing treatments. It can drastically change skin texture, smooth scarring, offer congestion extraction, refine open pores, treat pigmentation and more, but Resurface and Heal enhances the process still further with a two-step approach that combines Volcanic microdermabrasion skin resurfacing and phototherapy. The simultaneous use of blue and red phototherapy light enables the skin to be treated a little more aggressively than with conventional microdermabrasion but without clients experiencing considerable downtime.

HOW?

Ready to discover the red-carpet beauty secret of the moment? Resurface & Heal has practically all the answers to your skincare concerns. The innovative two-step process uses microscopic crystals to blast and buff away dead and fibrous cells and attack congestion revealing an instantly smooth, bright, and radiant

complexion. The simultaneous light therapy transforms the skin on a cellular level and treats problematic skin from the inside out. Whatever treatment you choose (more on that later!) the Resurface & Heal delivers everything the skin needs to intensively rejuvenate, repair, renew and smooth.

CLINIC APPLICATIONS INCLUDE:

LESS THAN 30 MINS

A complete facial in less than 30 minutes & offers total skin resurfacing.

PROBLEMATIC SKIN

One of the most successful treatments for treating problematic skin.

SCARRING AND SCAR TISSUE

Resurfaces and refines acne scarring and scar tissue.

FINE LINES AND WRINKLES

Perfect for ageing skin as it visibly refines the skin and reduces fine lines and wrinkles.

SUN DAMAGED SKIN

Literally resurfaces Sun damaged skin.

BRIGHTER SMOOTHER SKIN

Offers more in depth treatments or a quick crystal flash for immediately brighter smoother skin.

BODY APPLICATIONS

Body applications include total body exfoliation for silky smooth skin.

ELIMINATE PIGMENTATION

An effective treatment for helping eliminate Pigmentation marks on any skin colour.

WHY YOU'LL LOVE IT

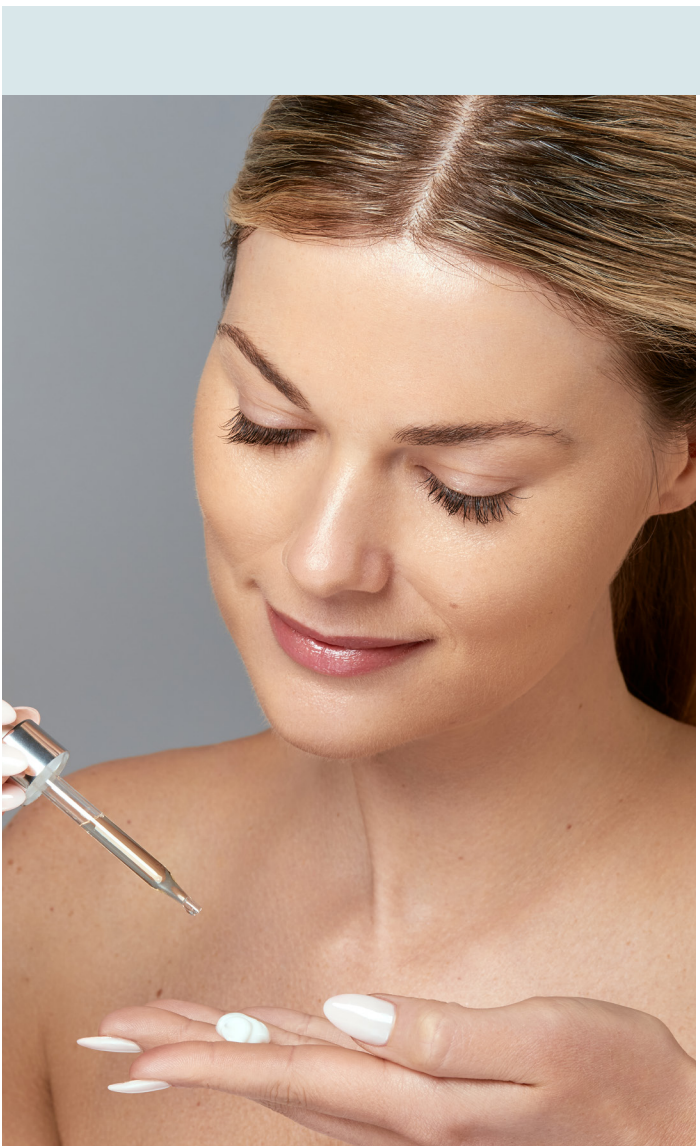

Traditionally microdermabrasion facial results required multiple treatments and long recovery times to see results. Not anymore. This is something you can slot into your existing routine seamlessly and see results from the very first appointment.

THE RESULT?

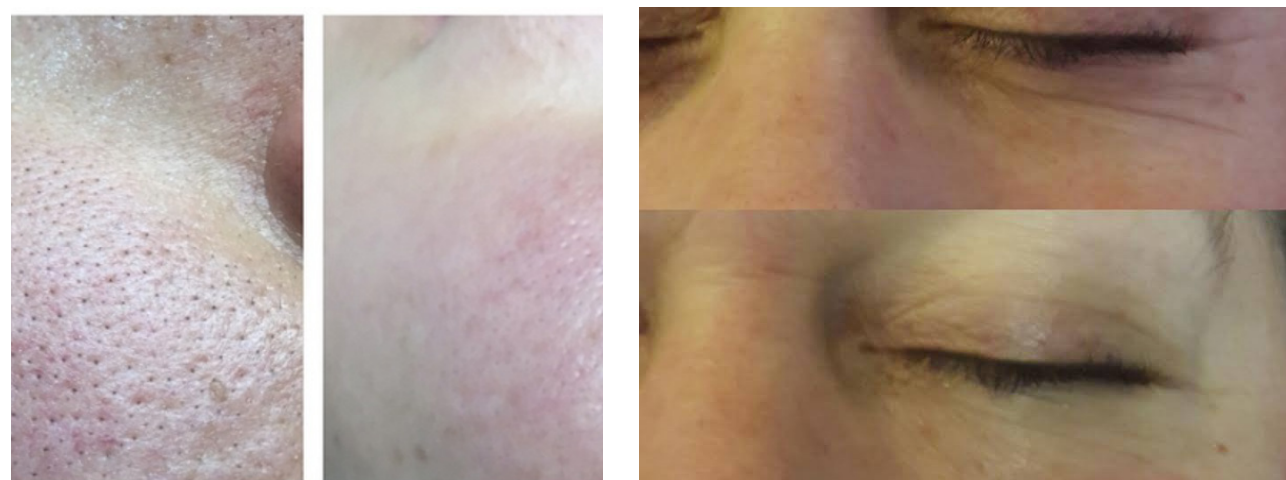

Effortlessly smoothed, youthful, and luminous even skin. A true Hollywood skin makeover. What are you waiting for?! The best skin of your life has just come a' knocking...

THE PROOF

In independent clinical trials, Resurface and Heal was conclusively proven to dramatically and visibly improve the texture and appearance of the skin, reducing and smoothing fine lines and wrinkles, producing a smoother more rejuvenated skin.

THE RESULTS

THE TREATMENTS

Intrigued?! We thought you might be. The two-step Resurface & Heal technology allows you to create bespoke results unique to you. Your skin practitioner will analyse your skin and discuss any skin concerns you may have in order to ensure your treatment is as unique as you are. Depending on your needs or skincare goals a course of treatments may be recommended. There's (almost) nothing it can't transform.

CAMERA-READY SKIN

Need to put your best face forward? If you need a skin boost with results FAST, then the Resurface & Heal Camera-Ready Skin treatment is the only choice. Sit back and relax as the power of crystals buff your way to skin that looks rejuvenated, instantly.

PROBLEMATIC SKIN

Sick of suffering with oily, congested skin? Blackheads and blocked pores ruining your self-esteem? Gently resurface your skin to improve the appearance of problematic areas and heal your skin on a cellular level for clear, bright cleansed skin.

ACNE-SCARRING & STRETCH MARKS

Precision facial technology at its finest. The power of microdermabrasion smoothes raised skin and blends depressions to make both less noticeable. Think that your raised scars or stretch marks can't be improved on? Think again.

SKIN REJUVENATION & WRINKLE SMOOTHING

Tackle the signs of ageing to reveal more youthful skin in an instant. Gentle removal of dead skin cells from the upper layers of the skin leaves behind smooth, polished perfection with wrinkles that appear softened and significantly reduced.

BRIGHTEN & LIGHTEN

Promote that lit from within megawatt glow up with the power of crystals. Treat uneven skin tone and dark pigmentation in an instant. Safe, gentle, and suitable for all skin types and tones.

BODY POLISHING

Jetting off to paradise but your skin didn't get the memo?! Reach for the perfect pre-holiday treatment for any of those troublesome areas that need a good polish.
